Statement of CPNI Procedures and Compliance

**Fones West Digital Systems, Inc.**

Calendar Year 2007

**Fones West Digital Systems, Inc.**

**Statement of CPNI Procedures and Compliance**

Fones West Digital Systems, Inc. ("Fones West" or "Company") is a very small business (fewer than five employees). Fones West provides paging services to individuals and businesses.

Fones West does not use or disclose customer proprietary network information ("CPNI") for any purpose other than the provision and billing of its services. If the Company elects to use CPNI in a manner that requires customer approval, it will follow the applicable rules set forth in 47 CFR Subpart U, including institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

Call detail information is not provided over the telephone to customers. If a customer requests call detail information, it is sent to the e-mail or U.S. mail address of record previously provided by the customer.

Customers do not have on-line access to their CPNI. The Company does not have any retail locations and therefore does not disclose CPNI at in-store locations.

Fones West trains those employees who have access to CPNI in the importance of protecting customer data.

The Company notifies law enforcement of a breach of a customer's CPNI within seven (7) business days, and notifies customers of the breach. The Company maintains a record of all such breaches and notifications and updates the customer's record with information regarding such notifications.

The Company has not taken any actions against data brokers in the last year.

The Company did not receive any customer complaints about the unauthorized release of CPNI or call records in calendar year 2007.

The Company has not developed any information with respect to the processes pretexters are using to attempt to access CPNI or call records.
